ORDERS IN COUNCIL

P.C. 4682

AT THE GOVERNMENT HOUSE AT OTTAWA

FRIDAY, the 14th day of NOVEMBER, 1947.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL

HIS Excellency the Governor General in Council, on the recommendation of the Minister of Mines and Resources, and pursuant to the powers conferred by the Dominion Lands Act, Chapter 113, Revised Statutes of Canada, 1927, is pleased to order as follows:

1. The Regulations governing the issue of leases to dredge for minerals in the beds of rivers in Manitoba, Saskatchewan, Alberta and the Northwest Territories which were made and established by Order in Council P.C. 2109 of December 20, 1926, as amended, and the Regulations governing the issue of leases to dredge for minerals in the submerged beds of rivers in the Yukon Territory, which were made and established by Order in Council P.C. 1058 of May 14, 1907, as amended, are hereby revoked; and

2. The attached Regulations governing the issue of leases to dredge for minerals in the submerged beds of rivers in the Northwest Territories and Yukon are hereby made and established in substitution for the Regulations hereby revoked.

A. D. P. HEENEY,
48-4 Clerk of the Privy Council.

REGULATIONS GOVERNING THE ISSUE OF LEASE TO DREDGE FOR MINERALS IN THE SUBMERGED BEDS OF RIVERS IN THE NORTHWEST TERRITORIES AND YUKON TERRITORY

1. These Regulations may be cited as "THE DREDGING REGULATIONS".

2. In these regulations:

(*a*) "Minister" means the Minister of Mines and Resources;

(*b*) "River" means a stream of water the bed of which is of an average width of one hundred and fifty feet throughout the portion thereof sought to be leased. The Mining Recorder shall be the judge as to whether or not any stream in connection with which dredging applications have been made is sufficiently large to be considered a river within the meaning of these regulations;

(*c*) "River Bed" means the bed and bars of the river to the foot of the natural banks.

3. The Minister may issue leases to any person granting the exclusive right to dredge for gold, silver and platinum in the bed of any river in the Northwest Territories and the Yukon Territory.

4. The length of river to be included in any lease shall be continuous, and shall in no case exceed ten miles measured along the middle of the river following its sinuosities.

5. Every lessee under these regulations shall have the exclusive right to dredge the river bed within the length of river leased to him.

6. Not more than one lease shall be issued in favour of one person.

7. The lessee shall, when so directed by the Minister, cause a survey to be made, at his own expense and in accordance with the instructions of the Surveyor General, of the extent of river leased to him, and the returns of such survey shall be filed in the Department of Mines and Resources within six months after receipt by the lessee of such direction and instructions.

8. The lease shall be for a term of fifteen years, at the end of which time all rights vested in or which may be claimed by the lessee under his lease shall cease and determine. The lease may be renewed, however, from time to time at the discretion of the Minister, provided it is shown to his satisfaction that the leasehold has not been fully mined; that the lessee has, during the term of his lease, efficiently operated the leasehold, and that he has otherwise complied fully with the provisions of the regulations.

9. The lessee shall not assign his lease, nor transfer or sublet the demised premises or any portion thereof, without the consent in writing of the Minister.

10. (*a*) A lease in the Northwest Territories shall be deemed to be subject to the rights of all persons, who, prior to the issue of the lease received entries for claims under the provisions of the Northwest Territories Placer Mining Regulations.

(*b*) A lease in the Yukon Territory shall be deemed to be subject to the rights of all persons, who, prior to the issue of the lease received entries for claims under the provisions of the Yukon Placer Mining Act.

11. (1) The lessee shall, within three years from the date of his lease, have at least one dredge, of such capacity as the Minister may deem sufficient, in operation upon his leasehold, and shall in every year thereafter during the continuance of his lease dredge from such leasehold not less than 20,000 cubic yards of gravel. If the lessee fails to furnish proof yearly, or at such times as the Minister may direct, of the efficient operation of such dredge, and of the actual work performed, the Minister may cancel the lease.

(2) Upon application to that effect being made to him by any persons holding adjoining dredging leaseholds, not exceeding five in number, the minister may grant permission to such persons, for a term not exceeding ten years, to operate each of their respective dredges on any one or more of such leaseholds, and to perform on any one or more of them all the work required to be done on each leasehold separately, as required under the preceding section.

12. The lessee shall pay for the first year a rental of $100 for each mile of river leased to him, and for each subsequent year a rental of $10 for each mile.

13. The same royalty shall be paid upon gold mined under a dredging lease as is paid from time to time upon gold mined from ordinary placer mining claims.

14. The lessee may obtain from the Crown Timber Agent a permit or permits to cut, free of dues, such timber as may be necessary for the purposes of his mining operations. Such permit or permits shall contain a description of the tract or tracts within which the timber may be cut, and the kind, dimensions and quantities of timber to be so cut. Such permit, however, shall not give or be deemed to give to the holder thereof any exclusive right to the timber on the tract described therein.

15. The lessee shall not interfere in any way with the general right of the public to use for navigation or other purposes the river upon which he holds a lease. The free navigation of a river shall not be impeded by the deposit of tailings, and the current or stream shall not be obstructed in any material degree by the accumulation of tailings. If the lessee fails to observe this condition of his lease, notice may be posted by such officer as the Minister directs at the point where the stream has been impeded or obstructed or in the vicinity thereof, requiring such defect to be remedied, and a copy of such notice shall be served upon the lessee or his agent. If the lessee fails to remove, within the time set out in

the said notice, the impediment or obstruction complained of, the lease may be cancelled by the Minister.

16. The lease shall provide that,

(*a*) any person who received or who may receive entry under the Northwest Territories Placer Mining Regulations, or

(*b*) any person who received or who may receive entry under the Yukon Placer Mining Act

shall be entitled to run tailings into the river at any point thereof and to construct all works which may be necessary for properly operating his claim, provided that it shall not be lawful for any such person to construct a dam or wing-dam within one thousand feet from the place where any dredge is being operated, or to obstruct or interfere in any way with the operation of any dredge.

17. The lease shall reserve all roads, ways, bridges, drains and other public works and all duly authorized improvements now existing or which may hereafter be made in, upon, or under any part of the river, and the power to enter and construct the same, and shall provide that the lessee shall not damage nor obstruct any public or duly authorized ways, drains, bridges, works and improvements now or hereafter to be made upon, in, over, through or under the river, and that he will substantially bridge or cover and protect all the cuts, flumes, ditches and sluices and all pits and dangerous places at all points where they may be crossed by a public highway or frequented path or trail to the satisfaction of the Minister.

18. These regulations shall not restrict any rights which have been granted under former regulations.

19. The fees to be charged in connection with the administration of these Regulations shall be as follows:

Application for a lease..	$5.00
Assignment of a lease..	$3.00

P.C. 4684

AT THE GOVERNMENT HOUSE AT OTTAWA

WEDNESDAY, the 19th day of NOVEMBER, 1947.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL

HIS Excellency the Governor General in Council, on the recommendation of the Minister of Mines and Resources, and pursuant to the powers conferred by the Dominion Lands Act, Chapter 113, R.S.C. 1927, is pleased to order as follows:

1. The Regulations for the issue of Permits to Mine Coal, the property of the Crown, for domestic purposes, but not for sale, in the Provinces of Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories, the Railway Belt in the Province of British Columbia, and within the tract containing three and one-half million acres acquired by the Dominion Government from the Province of British Columbia and known as the Peace River Block, made by Order in Council P.C. 735 of March 11, 1921, as amended, are hereby revoked; and

2. The attached Regulations for the issue of Permits to Mine Coal, the property of the Crown, for domestic purposes, but not for sale in the Northwest Territories and Yukon Territory, are hereby made and established in substitution for the Regulations hereby revoked.

A. D. P. HEENEY,
Clerk of the Privy Council.

48-4

REGULATIONS FOR THE ISSUE OF PERMITS TO MINE COAL, THE PROPERTY OF THE CROWN, FOR DOMESTIC PURPOSES BUT NOT FOR SALE IN THE NORTHWEST TERRITORIES AND YUKON TERRITORY

1. These Regulations may be cited as the DOMESTIC COAL REGULATIONS.

2. In these Regulations.

(*a*) "Location" means the tract which may be described in a domestic coal permit.

(*b*) "Locator" means the person who locates or stakes a mining location in the manner prescribed in these regulations.

(*c*) "Mining Recorder" means the Agent of Dominion Lands for the districts, or other officer appointed by the Governor in Council for the purpose referred to.

(*d*) "Minister" means the Minister of Mines and Resources of Canada.

(*e*) "Year" means a period of twelve consecutive calendar months.

3. (1) The coal mining rights which are the property of the Crown in the Northwest Territories and Yukon Territory may be acquired by any person under permit issued by the mining recorder for the district at an annual rental of $5 payable in advance, provided, however, that these regulations shall not apply to school lands or to lands comprised in any national park, or other reserves made by Parliament or by order of the Governor in Council, or lands lawfully occupied for mining purposes, or land within any city, town, village, local administrative district or settlement, unless otherwise specially provided by the Governor in Council.

(2) The permit shall not convey to the permittee the right to sell any of the coal mined from the location described therein.

4. The maximum area of a coal mining location which may be acquired under permit shall be one (1) acre, and no person shall be permitted to hold at the same time more than one permit. The permit may, in the discretion of the Minister be renewed from year to year so long as the rights described therein are vested in the Crown, provided the permittee has complied in every respect with the requirements of the regulations under which such permit was issued, and provided he is operating a mine to the satisfaction of the Minister.

5. A coal mining location acquired under these regulations shall not exceed three chains in width, measured in direct distance, and its greatest dimensions shall not exceed five chains, the maximum area embraced not to exceed one acre.

6. (1) The location shall be staked out by the locator in person by placing at each of its four corners a wooden post not less than four inches square, driven not less than eighteen inches into the ground and showing that length above it. If posts cannot be driven into the ground the locator shall erect about each such post, to support it and keep it in place, a cairn or mound of stones at least three feet in diameter at the base and eighteen inches high. If the location is timbered a line joining the said posts shall be run and fully marked so as to be clearly discernible. If the ground is of such a character that any one post cannot be seen from the ends of either of the lines which form the angle at which the said post is placed, posts flattened on two sides—such flattened portions to face the direction of the line—shall be planted or mounded along the side lines wherever necessary, so that no difficulty may be experienced in following the boundaries of the location. The lines bounding the location shall

be straight lines, due north and south and due east and west, and the locator shall mark on the post at the northeast angle of the location legibly his name in full, the date of staking, and the letters C.M.L. No. 1 to indicate that the post is coal mining location post No. 1. On the post marking the southeast angle of the location he shall place the letters C.M.L. No. 2 and his initials; on the post marking the southwest angle he shall place the letters C.M.L. No. 3 and his initials; and on the post marking the northwest angle he shall place the letters C.M.L. No. 4 and his initials.

(2) If a corner of the location falls within a ravine, bed of a stream, or other situation where the character of the ground may render the planting of a post impossible, the said corner shall be indicated by the erection at the nearest suitable point a witness post, upon which he shall place the inscription provided for with regard to corner posts, together with the letters W. P., and an indication of the bearing and distance of the site of the corner marked by such witness post.

7. Application for a location shall contain a description of the location applied for, and shall be accompanied by a plan showing the position of such location in its relation to some prominent topographical feature or other known point. The plan shall contain sufficient data to admit of the exact position of the location being definitely shown in the records of the department. The location shall be rectangular in form, except where a boundary of a previously located coal mining location is adopted as common to both locations, and in no case shall the length of the location exceed three times its breadth. Unless definite information is furnished as to the exact position of the location so staked the application for a permit will not be considered.

8. The location shall in all cases be personally staked out by the applicant, who shall within thirty days from the date of location submit his application in person to the mining recorder for the district, or to a sub-recorder for such district for transmission to the recorder. If personal application is not submitted in the manner prescribed within thirty days from the date of staking it shall not be considered.

9. Where two or more persons lay claim to the same location the right to acquire the same shall be in him who can prove that he was the first to make discovery, or to take possession by demarcation in the manner prescribed in these regulations.

10. If application is made by two or more applicants for the same location, no one of whom is the original discoverer, the Minister may invite their competitive tenders.

11. No person shall enter upon for mining purposes or shall mine upon lands owned or lawfully occupied by another, until he has given adequate security to the satisfaction of the mining recorder for any loss or damage which may be thereby caused, and persons so entering, locating, prospecting, or mining upon any such lands, shall make full compensation to the owner or occupant of such lands for any loss or damage so caused.

12. In addition to the rent a royalty at the rate of twenty-five cents per ton of 2,000 pounds shall be levied and collected on the merchantable output of the mine, and such royalty shall be payable to the mining recorder for the district. The person operating a mine shall furnish the mining recorder for the district with sworn returns monthly or at such times as the Minister may direct, accounting for the full quantity of merchantable coal mined, and shall pay the royalty thereon.

13. Default in payment of the royalty or in furnishing returns, if continued for thirty days after notice has been posted at the mine, or conspicuously on the property in respect of which it is demanded by the mining recorder, or by his direction, may be followed by cancellation of the permit.

14. The permit of any person who attempts to defraud the Crown by withholding any part of the royalty or who makes false statements of the amount of the coal taken out, may be cancelled by the Minister.

15. The permittee shall, before opening any mine on the tract described in his permit, and before removing any coal therefrom, notify the mining inspector in writing of his intention to do so, and with a view to conservation, all operations for the recovery of such coal shall be in accordance with instructions given by the Mining Inspector. Failure on the part of the permittee to so notify the mining inspector of his intention to commence operations, or failure to comply strictly with such instructions as may be issued by the Mining Inspector as to the manner in which the location shall be operated, will render the permit subject to immediate cancellation.

16. The mining inspector or other officer or person designated by the Minister shall have the right to enter upon any land acquired under permit, or the workings thereon, to examine all records and books of account of the permittee or operator, and to make such other examination as may be deemed necessary in order to ascertain whether or not the conditions of the permit and the instructions respecting operation are being complied with.

17. The permit shall be returned to the mining recorder on the date specified therein, and for failure to do so the mining recorder may refuse to issue another permit.

18. In isolated portions of the Northwest Territories and Yukon Territory, Indians or Eskimos who apply for permission to mine small quantities of coal for their own use, or for sale to others in their locality, may be granted permission so to do by the mining recorder, or other authorized officer, free of charge, without being required to make application under the provisions of these regulations.

The Regulations for the disposal of Coal Mining Rights, the property of the Crown, in the Provinces of Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories, the Railway Belt in the Province of British Columbia, and within the tract containing three and one-half (3½) million acres of land acquired by the Dominion Government from the said Province of British Columbia, and referred to in subsection (*b*) of section three of the Dominion Lands Act, which were made and established by Order in Council P.C. 729 of April 20, 1910, and re-established by Order in Council P.C. 1793 of August 12, 1911, as amended, are hereby revoked; and

2. The attached Regulations for the disposal of Coal Mining Rights, the property of the Crown, in the Northwest Territories and Yukon Territory, are hereby made and established in substitution for the Regulations hereby revoked.

A. D. P. HEENEY,
Clerk of the Privy Council.

REGULATIONS FOR THE DISPOSAL OF COAL MINING RIGHTS THE PROPERTY OF THE CROWN IN THE NORTHWEST TERRITORIES AND YUKON TERRITORY

1. These Regulations may be cited as the Coal Mining Regulations.

2. In these Regulations,

(*a*) "Coal Mining Location", means a tract of land, containing coal, located or staked in accordance with these regulations.

(*b*) "Locator" means the person who locates or stakes a coal mining location, in the manner prescribed in these regulations.

(*c*) "Minister" means the Minister of Mines and Resources.

(*d*) "Mining Recorder" means the Agent of Dominion Lands for the district, or other officer appointed by the Governor in Council for the purpose referred to.

(*e*) "Year" means a period of twelve consecutive calendar months.

3. The coal mining rights which are the property of the Crown in the Northwest Territories and Yukon Territory, may be leased by the Minister to any person at an annual rental of $1 per acre, payable yearly in advance.

Provided, however, that these regulations shall not apply to school lands or to any land comprised within a National Park of Canada or reserves made by Parliament, or by Order of the Governor in Council, or to land within any incorporated city, town, or village, local administrative district or settlement, unless otherwise specially provided by the Governor in Council.

4. The term of the lease shall be twenty-one years, renewable for a further term of twenty-one years, provided the lessee furnishes evidence, satisfactory to the Minister, to show that during the term of the lease he has complied fully with the conditions of such lease, and with the provisions of the regulations regarding the disposal and operation of coal mining rights which may have been made from time to time by the Governor in Council, and subject to renewal for additional periods of twenty-one years on such terms and conditions as may be prescribed by the Governor in Council.

5. The maximum area of a coal mining location shall be 2,560 acres, and no person shall be permitted to acquire more than one location, except by assignment:

Provided that a person who has been granted a lease for a location, and who subsequently abandons or assigns the same, may, after the expiration of twelve months from the date of the said lease, be permitted to secure another location.

Provided, further, however, that such right of relocation shall not be granted unless all payments on account of rent, royalty, or other liability to the Department, due by such person, have been fully made up to the date of the registration by the Department of the assignment of his right to such lease, or up to the date upon which the notice of his abandonment of the same was received by the Department.

6. Application for a coal mining location shall be filed by the locator in person with the mining recorder for the district in which the location is situated within thirty days from the date upon which the location applied for was staked in accordance with section seven (7) of these regulations. If, however, the location is distant more than one hundred miles from the office of the mining recorder, the locator shall be allowed one additional day for each ten miles, or fraction thereof, in excess of one hundred miles. If the application is not filed within the time prescribed, it shall not be considered.

7. (1) Application for a location shall be in duplicate and shall contain a description by metes and bounds of the location applied for, and shall be accompanied by a plan in duplicate showing the position of such location in its relation to some prominent topographical feature or other known point. The plan shall contain sufficient data to admit of the position of the location applied for being definitely shown in the records of the Department. The location must be rectangular in form, except where a boundary of a previously located tract is adopted as common to both locations, the length not to exceed four times the breadth.

(2) The application shall be accompanied by evidence, supported by affidavit of the locator, to show that the following requirements have been fully complied with:—

(*a*) That the location applied for has been defined on the ground by the locator in person by planting two wooden posts, at least four inches square and standing not less than four feet above the ground—such posts being numbered "1" and "2" respectively. The distance between post No. "1" and post No. "2" shall not exceed 21,120 feet and upon each post shall be inscribed the name of the locator and the

date of the locations. Upon post No. "1" there shall be written in addition to the foregoing, the words "Initial Post", the approximate compass bearing of post No. "2", and a statement of the number of feet lying to the right and to the left of the line between post No. "1" and post No. "2" thus: (Initial post, direction of post No. "2" is. . . . feet lie to the right and . . . . feet to the left of the line between post No. "1" and post No. "2").

When the tract which an applicant desires to lease has been located, he shall immediately mark the line between post No. "1" and post No. "2", so that it can be distinctly seen, in a timbered locality, by blazing trees and cutting underbrush, and in a locality where there is neither timber nor underbrush he shall set posts of the above dimensions or erect mounds of earth or rock not less than two feet high and two feet in diameter at the base in such a manner that the line may be distinctly seen.

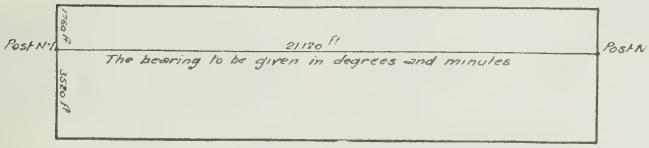
(b) All the particulars required to be inscribed on posts No. "1" and No. "2" shall be set out in the application and shall be accompanied by a plan showing the position of the tract in its relation to some prominent topographical feature or other known point, such plan to contain sufficient data to admit of the location being shown definitely on the records of the Department.

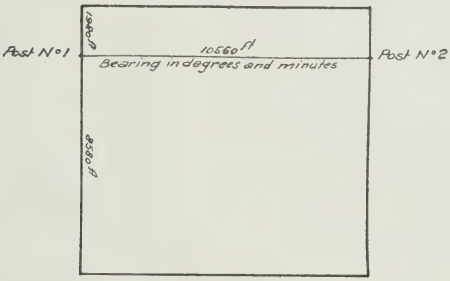
(c) The locator shall post a written or printed notice on a conspicuous part of the location applied for, setting out his intention to apply within thirty days from the date of such notice for a lease of the coal mining rights under the said location.

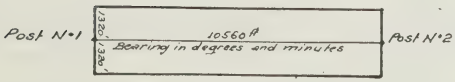
(For purposes of illustration, the following diagrams are given to show the manner in which coal mining locations may be laid out in unsurveyed territory.)

DIAGRAM SHOWING MODE OF STAKING

A location should be staked along its greatest dimension.







8. Where two or more persons lay claim to the same location, or to portions of the same locations, the right to acquire a lease shall be in him who can prove to the satisfaction of the Minister that he was the first to take possession of the tract in dispute by demarcation in the manner described in these regulations, and that he made application for a lease thereof within the specified time.

9. The lessee shall commence active operations on his leasehold within one year from the date upon which he may be notified by the proper officer of

the Department to do so, and shall produce from such operations the quantity of coal specified in the said notification. Such notification shall not be given until the expiration of at least one year from the date of the lease, and shall set out the quantity of coal which the lessee is required to mine and produce at the pit's mouth ready for shipment, which quantity, however, may be increased from time to time, upon thirty days' notice to that effect being given to the lessee, but in no case shall the maximum quantity required to be mined exceed ten tons per annum for each acre leased. In case operations are not commenced within the time specified in the notice, or if the required quantity of coal is not mined during each year, the lease shall be subject to cancellation in the discretion of the Minister.

10. The lessee shall not assign, transfer or sublet the rights described in his lease, or any part thereof, without the consent in writing of the Minister being first had and obtained.

11. (1) The boundaries beneath the surface of coal mining locations shall be the vertical planes or lines in which their surface boundaries lie.

(2) The Lessee, however, shall not mine or excavate any coal within sixty feet from the boundary lines of the location which may be leased to him, and the rights and privileges granted under the lease shall not extend to the mining of any coal which lies within sixty feet from the said boundary lines, nor shall the lessee make or suffer to be made any opening underground into any adjoining lands through the said barrier of sixty feet which it is intended shall remain as a protection from water accumulating and from fire occurring in the mine which may be opened on the location, or in mines adjacent thereto, as well as for the prevention of subsidence.

12. All leases of coal mining rights issued under these regulations shall be subject to the provision that actual settlers shall be entitled to buy at the pit's mouth whatever coal they may require for their own use, but not for barter or sale, at a price not to exceed $5 per ton, and the lease issued for coal rights shall be made subject to such provision.

13. The lease shall be in such form as may be determined by the Minister, in accordance with the provisions of these regulations.

14. A fee of $5 shall accompany each application for a lease, which will be refunded if the rights applied for are not available, but not otherwise.

15. The applicant for a lease of coal mining rights shall be given a period of thirty days from the date of the receipt of his application within which to pay to the mining recorder for the district the full amount of the rental for the first year of the term of the lease at the rate of one dollar an acre. If the rental is not received within the time specified, the application shall absolutely lapse, and the rights applied for shall again become available for other disposition in the discretion of the Minister. The lease, if issued, shall bear date the day upon which the application was granted.

16. In isolated portions of the Northwest Territories and Yukon Territory, Indians or Eskimos who apply for permission to mine small quantities of coal for their own use, or for sale to others in their locality, may be granted permission so to do by the mining recorder, or other authorized officer, free of charge, without being required to make application under the provisions of these regulations.

17. If during the term of the lease the lessee shall fail to pay the rental in advance for each subsequent year, at the rate of one dollar ($1) an acre per annum, within thirty days after the date upon which the same became due, the lease shall be subject to cancellation in the discretion of the Minister and to the immediate forfeiture of all the rights granted thereunder.

Provided that if at any time after a lease has been cancelled through failure to pay the prescribed rental, the person in whose favour the lease stood recorded on the date of cancellation applies to the mining recorder for the district for re-instatement in the rights which he formerly had to such lease, and tenders the full amount of the rental which should have been paid to maintain the lease in good standing, with interest, such person may be re-instated in the right which he formerly had to the location sought to be re-acquired, or to any portion thereof, which may still be available.

18. If the surface rights thereof have been patented or have been disposed of by the Crown under any Act or regulation which contemplates the issue of patent, or if the surface rights have been disposed of temporarily under a terminable grant, the Minister may, in consideration of the expenditure to be incurred by the locator on the tract leased, in prospecting operations and upon application to that effect being filed with the mining recorder, of the district in which the location is situated, waive the payment of the rental for the first and the second years of the term of the lease, subject to the following conditions:—

(*a*) Each such application shall be accompanied by a fee of one hundred dollars ($100) which amount will be deducted from the expenditure which the locator shall be required to incur in prospecting operations on his leasehold during the first year of the term of his lease. Such fee shall be refunded to the locator if the application is not granted.

(*b*) Subject to the deduction of the one hundred dollar fee, as provided in the foregoing subsection (*a*), the locator shall expend in actual prospecting operations upon his leasehold by recognized methods, during each of the first and the second years of the term of his lease, the sum of not less than one dollar ($1) for each acre of the total area of his location, and shall, prior to the termination of each of the said two years submit evidence, satisfactory to the agent, supported by affidavit, to show that he has incurred the required expenditure in actual prospecting operations, by recognized methods, on the tract covered by his location. If the lessee fails to submit such evidence in the manner prescribed, the lease shall be subject to cancellation in the discretion of the Minister and to the immediate forfeiture of all the rights granted thereunder.

19. In addition to the rent a royalty per ton of two thousand pounds at such rate as may from time to time be prescribed by Order of the Governor General in Council shall be levied and collected on the merchantable output of the mine, and such royalty shall be payable monthly to the mining recorder from the date upon which operations may be commenced. The person operating a mine shall furnish the mining recorder with sworn returns monthly, or at such times as the Minister may direct, accounting for the full quantity of merchantable coal mined.

20. Every lessee of coal mining rights which are not being operated shall furnish the mining recorder with a sworn statement to that effect at least once in each year.

21. If default is made in payment of royalty payable under a lease or in furnishing the returns and

continued for thirty days after notice has been posted at the mine or conspicuously on the property in respect of which it is demanded by the mining recorder or his direction, or if any attempt is made to defraud the Crown by withholding the royalty or any part thereof payable under that lease, or if false statements are made concerning the amount of coal taken from the lands described in that lease, the lease may be cancelled by the Minister and his decision shall be final.

22. A mining recorder or any person designated by him shall have the right to enter upon any land comprised within a coal mining location, or the workings therein; to examine all records and books of account of the lessee or operator of such mining location, and to make such other examination as may be deemed necessary in order to ascertain whether or not the terms of the lease for such location are being duly complied with.

23. The lease shall in all cases include the coal mining rights only, the property of the Crown, but the lessee may, upon application, be granted a yearly lease at a rental of $1 per acre per annum, payable yearly in advance, of whatever area of the available surface rights of the tract described in the coal mining lease the Minister may consider necessary for the efficient and economical working of the rights granted under such lease.

24. In case the surface rights of a coal mining location are covered by a timber licence, grazing or petroleum lease, mining claim or other form of terminable grant which does not contemplate the issue of patent, the lease shall not authorize entry thereon unless the permission of the Minister is first had and obtained, and such permission shall be given subject to such conditions for the protection of the rights of such lessee or licensee as it may be considered necessary to impose.

25. (1) In case the surface rights of a coal mining location have been patented, or have been disposed of by the Crown under any Act or regulation which contemplates the earning of patent for such surface rights, and the lessee of the coal mining rights cannot make an arrangement with the owner of the surface rights, or his agent, or the occupant thereof, for entry upon the location, or for the acquisition of such portion of the surface rights as may be necessary for the efficient and economical operation of the rights acquired under his lease, he may, provided the mineral rights in the land affected, with access thereto, and the right to use and occupy such portion of the said land as may be necessary for the effectual working of the minerals therein, have been reserved to the Crown in the original grant of the surface rights, apply to the Minister for permission to submit the matter in dispute to arbitration. Upon receiving such permission in writing, it shall be lawful for the lessee to give notice to the owner, or his agent or the occupant, to appoint an arbitrator within a period of sixty days from the date of such notice, to act with another arbitrator named by the lessee, in order to determine what portion of the surface rights the lessee may reasonably acquire:

(*a*) For the efficient and economical operation of the rights and privileges granted him under his lease;

(*b*) The exact position thereof;

(*c*) The amount of compensation to which the owner or occupant shall be entitled has already been paid, he may apply such payment or such portion thereof as to him seems reasonable, on account of future payments of the rental of any leasehold included in the location, such expenditure, however, not to be accepted as payment of rental during a greater period than five years of the term of the leases.

(2) The notice mentioned in this section shall be according to a form to be obtained upon application to the mining recorder for the district in which the land in question is situated, and shall, when practicable, be personally served on the owner of such land, or his agent, if known, or the occupant thereof, and after reasonable efforts have been made to effect personal service without success, then such notice shall be served by leaving it at, or sending it by registered mail, to the last known place of abode of the owner, agent or occupant, and by posting a copy of the same in the office of the mining recorder for the district in which the land in question is situated. Such notice shall be served, if the owner, or his agent, resides in the mining district in which the land is situated, ten days, if out of the mining district and in the territory twenty days, and if out of the territory thirty days, before the expiration of the time limited in such notice. If the owner, or his agent, or the occupant of the land, refuses or declines to appoint an arbitrator, or when for any reason, no arbitrator is so appointed in the time limited therefore in the notice provided for by this section, the mining recorder for the district in which the land in question is situated shall forthwith, on being satisfied by affidavit that such notice has come to the knowledge of such owner, agent, or occupant, or that such owner, agent, or occupant wilfully evades the service of such notice, or cannot be found, and that reasonable efforts have been made to effect such service, and that the notice was left at the last place of abode of such owner, agent, or occupant, as above provided, appoint an arbitrator on his behalf.

26. In case the two arbitrators cannot agree upon the award to be made, they may, within a period of ten days from the date of the appointment of the second arbitrator, select a third arbitrator, and when such two arbitrators cannot agree upon a third arbitrator, the mining recorder for the district in which the land in question is situated shall forthwith select such third arbitrator.

27. All the arbitrators appointed under the authority of these regulations shall be sworn before a Justice of the Peace to the impartial discharge of the duties assigned to them, and after due consideration of the rights of the owner and the needs of the lessee, they shall decide as to the particular portion of the surface rights which the latter may reasonably acquire for the efficient and economical operation of the rights and privileges granted him under his lease, the area thereof, and the amount of compensation therefor to which the owner or occupant shall be entitled.

28. In making such valuation the arbitrators shall determine the value of the land irrespective of any enhancement thereof from the existence of minerals thereunder.

29. The award of any two such arbitrators made in writing shall be final, and shall be filed with the mining recorder for the district in which the land is situated, within twenty days from the date of the appointment of the last arbitrator. Upon the order of the Minister the award of the arbitrators shall immediately be carried into effect.

30. The arbitrators shall be entitled to be paid a per diem allowance of $10, together with their necessary travelling and living expenses while engaged in the arbitration, and the costs of such arbitration shall be borne by the lessee.

31. Where a coal mining location comprises adjoining lands included in one or more leases, acquired

by assignment or otherwise under the provisions of these regulations, recorded in the name of one lessee, and situated more than ten miles from a railway when the leases were issued, and where the lessee of such location can show that he has expended in actual prospecting and developing operations on the location by recognized methods during any year prior to railway communication with the location having been established, an amount equal to or in excess of the prescribed yearly rental of such location, the Minister, upon proof satisfactory to him showing that such expenditure was incurred for the purpose and in the manner specified on one or more of the leaseholds comprising the location, may waive payment of the rental for the year of the term during which such expenditure may be shown to have been incurred, or in case the rental has already been paid, he may apply such payment or such portion thereof as to him seems reasonable, on account of future payments of the rental of any leasehold included in the location, such expenditure, however, not to be accepted as payment of rental during a greater period than five years of the term of the leases.

32. The lessee shall, before opening any mine on the lands described in the lease, and before extracting any coal therefrom, submit to the Minister plans and specifications showing in detail the manner in which it is proposed to open up, develop and operate such mine, and if the location contains more than one seam of coal, detailed information shall be furnished as to the particular seam which it is proposed to develop. No work shall be commenced for the recovery of coal, and no coal shall be extracted until such plans and specifications have been approved by the proper officer of the Department. The procedure to be adopted in opening up and operating a mine on the lands leased, as well as the particular seam of coal which shall first be operated, shall at all times be in accordance with the provisions of regulations duly approved by the Minister, and failure to comply with the requirements of such regulations shall render the lease subject to cancellation in the discretion of the Minister.

33. The fees to be charged in connection with the administration of these regulations shall be as follows:—

Application fee	$ 5.00
Additional application fee under Section 18	100.00
Annual rental per acre—coal mining rights	1.00
Annual rental per acre—surface rights	1.00
Registration of assignment of one lease	3.00
Registration of assignment of more than one lease— for each additional lease	0.50

8. Only such material shall be cut as is authorized by the permit and cutting shall only be done on the lands described in the permit.

(*c*) Any Department of the Government of Canada to cut such quantities of timber as may be required for its own use. In the case of a permit issued to any Department of the Government of Canada, a permit fee shall not be required.

Commercial Permits

21. (1) Subject to the approval of the Director, a Timber Agent may issue a permit for commercial

purposes to the owner of a sawmill to cut timber for the manufacture of lumber and other products or to any person to cut timber in excess of one hundred (100) cords subject to the payment of a permit fee of $1, annual ground rental at the rate of $100 per square mile, dues as set out in the Schedule hereto, and the performance of the conditions stated in the permit, the Dominion Lands Act and these Regulations.

Should the Superintendent so require, the lines joining the posts shall be blazed by the applicant.

(3) Upon receipt of an application under this Section, for a permit, the Timber Agent shall refer the application to the Superintendent for investigation and report and thereafter, forward the application together with the Superintendent's report to the Department for consideration.

(4) The permit fee and annual ground rental shall be payable in advance at the time application is made, together with twenty per cent of the dues on the cut to be authorized in the permit.

26. In areas where, in the opinion of the Timber Agent, there is a market for fuelwood, the permittee shall make the tops of trees not utilized for other purposes, into fuelwood, and shall pay dues thereon at the rates set out in the Schedule hereto.

27. Where the permittee is a sawmill owner, he shall maintain his sawmill in such condition that the lumber sawn from the timber cut under the authority of his permit, is manufactured to a standard satisfactory to the Superintendent, and if he fails to do so after thirty days' notice in writing, the Director may cancel the permit.

28. (1) When in the opinion of the Minister, it is desirable in the public interest to dispose of rights to cut timber in an area by competition, the local Timber Agent shall, on instructions from the Director, post notices in post-offices in the vicinity of such area and invite tenders.

(2) The Timber Agent may issue a permit to cut timber in such area to the person who offers and pays the highest cash bonus over and above the regular payments required in connection with a permit issued under these Regulations.

29. Avis de bills privés

107. Toute demande adressée au Parlement pour obtenir un bill privé doit être annoncée par avis publié dans la *Gazette du Canada;* cet avis doit indiquer d'une manière claire et précise la nature et l'objet de la demande, être signé par les pétitionnaires ou en leur nom et désigner l'adresse des signataires; et si la demande a pour objet l'obtention d'une loi en constitution de corporation, l'avis doit aussi mentionner le nom de la compagnie dont la constitution est projetée.

Outre l'avis dans la *Gazette du Canada,* comme susdit, pareil avis doit être donné de la façon suivante:

(A) Lorsque la demande a pour objet l'obtention d'une loi constituant en corporation:

1. *Une compagnie de chemin de fer ou de canal*—dans un des principaux journaux de la principale cité, ville ou village de chaque comté ou district par où doit passer le chemin de fer ou le canal dont la constitution est projetée;

2. *Une compagnie de télégraphe ou de téléphone*—dans un des principaux journaux de la principale cité ou ville de chaque province ou territoire dans lequel la compagnie se propose d'exercer des opérations;

3. Une compagnie ayant pour objet *l'exécution d'entreprises* dont l'exécution ou l'exploitation pourrait spécialement affecter une localité particulière, ou cherchant à obtenir des *droits ou privilèges exclusifs,* ou voulant accomplir toute affaire ou chose dont l'accomplissement affecterait les droits ou propriétés d'autrui—dans un des principaux journaux de l'endroit ou des endroits particuliers que le projet de loi peut affecter;

4. *Une compagnie de banque; compagnie d'assurance; compagnie fiduciaire; compagnie de prêt* ou *compagnie industrielle,* sans pouvoirs exclusifs—dans la *Gazette du Canada* seulement;

5. Et si les entreprises d'une compagnie (constituée ou à constituer) doivent être déclarées d'utilité publique au Canada, cette intention doit être expressément mentionnée dans l'avis, et les requérants doivent adresser une copie de cet avis, sous pli recommandé, au secrétaire de chaque conseil de comté et de chaque corporation municipale pouvant

être particulièrement affectée par l'exécution ou l'exploitation de ces entreprises, ainsi qu'au secrétaire de la province dans laquelle des entreprises sont ou peuvent être situées; et la preuve de l'observation de cette prescription par les requérants doit être établie par une déclaration statutaire.

(B) Lorsque la demande a pour objet de modifier une loi existante:

1. Afin de prolonger une ligne de chemin de fer ou un canal, ou de construire des embranchements qui s'y relient—l'avis doit être le même *mutatis mutandis* que celui pour l'obtention d'une loi constituant en corporation une compagnie de chemin de fer ou de canal;

2. Afin de proroger le délai fixé pour la construction ou l'achèvement d'une ligne de chemin de fer, d'un canal, d'une ligne télégraphique ou téléphonique, ou d'autres entreprises déjà autorisées—dans un des principaux journaux de l'endroit où la compagnie a ou est autorisée à avoir son siège social;

3. Afin d'élargir les pouvoirs d'une compagnie (sans comporter attribution de droits exclusifs); d'accroître ou de réduire le capital social d'une compagnie; ou d'augmenter ou modifier son pouvoir d'émettre des obligations ou ses autres pouvoirs d'emprunt; ou de présenter un amendement pouvant porter atteinte aux droits ou aux intérêts des actionnaires, des détenteurs d'obligations ou des créanciers de la compagnie—dans un des principaux journaux du lieu de son siège social.

(C) Tous ces avis, qu'ils soient insérés dans la *Gazette du Canada* ou dans un journal, doivent être publiés au moins une fois par semaine pendant quatre semaines consécutives; et lorsqu'ils sont publiés dans les provinces de Québec et du Manitoba, ils doivent être en langues anglaise et française.

Des exemplaires marqués de chaque numéro de tous les journaux contenant l'avis doivent être adressés au greffier du Sénat et porter la mention: "Avis de bill privé"; au lieu des journaux, une déclaration statutaire attestant que l'avis a été régulièrement publié peut être adressée au greffier du Sénat.

Tout avis adressé sous pli recommandé doit être mis à la poste à temps pour parvenir au secrétaire de la province et au greffier de chaque conseil de comté et de chaque corporation municipale deux semaines au moins avant l'examen de la pétition par le comité des ordres permanents; et une déclaration statutaire établissant le fait de la mise à la poste doit être transmise au greffier du Sénat.

108. Nulle pétition demandant la constitution en corporation d'une compagnie de chemin de fer ou d'une compagnie de canal, ou le prolongement de la ligne d'un chemin de fer ou d'un canal existant ou autorisé, ne doit être étudiée par le comité des ordres permanents, à moins qu'il n'ait été déposé devant le comité une carte ou un plan indiquant le tracé proposé de l'entreprise, ainsi que chaque comté, canton, district ou municipalité par où doit passer le chemin de fer, le canal, l'embranchement ou le prolongement dont la construction est projetée.

110. Toute pétition tendant à obtenir un bill privé ne sera reçue par le Sénat que si elle a été déposée chez le greffier du Sénat au cours des six premières semaines de la session; et tout bill privé introduit au Sénat doit être présenté au Sénat dans un délai de deux semaines après que l'examinateur des pétitions ou le comité des ordres permanents aura fait un rapport favorable à la pétition se rapportant à ce bill; et aucune motion demandant la suspension du présent ordre permanent ne sera prise en considération à moins que le comité des ordres permanents n'ait au préalable présenté un rapport recommandant pareille suspension.

114. Toute personne qui désire présenter un bill privé doit remettre au greffier du Sénat, s'il est projeté que le bill prenne naissance au Sénat, une copie du bill en anglais ou en français, avec un montant suffisant pour en payer la traduction, laquelle sera faite par les fonctionnaires du Sénat; elle doit aussi payer les frais d'impression de 600 exemplaires anglais et de 200 exemplaires français. Le requérant doit pareillement verser entre les mains du greffier du Sénat, aussitôt après la deuxième lecture du bill, et avant sa mise à l'étude par le comité auquel il est renvoyé, la somme de deux cents dollars avec les frais d'impression de la loi pour l'incorporer dans les Statuts; et il doit remettre au greffier de ce comité un reçu de ce versement.

La taxe à acquitter lors de la deuxième lecture d'un bill n'est payée qu'à la Chambre où le bill est présenté.

Modèle d'un bill amendant une loi

60A.—(1) Dans la confection des bills amendant des textes législatifs existants, les amendements ne doivent pas ordinairement être effectués au moyen de clauses qui ajoutent, retranchent ou remplacent des mots, mais au moyen de clauses qui réédictent l'article, le paragraphe ou la disposition, telle qu'amendée.

(2) Dans le texte du bill, sur la page de gauche, le nouveau texte doit être indiqué par les signes typographiques les plus appropriés à chaque cas; crochets, italique, texte souligné, astérisques, etc. En regard de chaque clause, sur la page de droite, le texte amendé par le bill, ou la partie importante de ce texte doit être imprimée, et les changements projetés doivent y être indiqués de la manière prévue ci-dessus.

(3) Lorsqu'une clause abroge un article existant, un paragraphe ou une autre disposition d'un article, cet article, ce paragraphe ou cette autre disposition, ou la partie qui en est importante, doit être imprimé en regard de la clause.

(4) Un mémoire du rédacteur expliquant brièvement les motifs de chaque clause doit être annexé au bill, ou distribué avec le bill. Lorsque possible, le mémoire doit être imprimé sur la page de droite du bill, en paragraphes placés en regard des clauses visées, et portant un numéro correspondant.

(5) Les règles ci-dessus s'appliquent, autant que possible, à la réimpression des bills.

L. C. MOYER,
Greffier du Sénat.

AT THE GOVERNMENT HOUSE AT OTTAWA

WEDNESDAY, the 26th day of November, 1947.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL

HIS Excellency the Governor General in Council, on the recommendation of the Acting Minister of Mines and Resources, and pursuant to the powers conferred by the Dominion Lands Act, Chapter 113, Revised Statutes of Canada, 1927, is pleased to order as follows:

1. The Regulations for the disposal of Coal Mining Rights, the property of the Crown, in the Provinces of Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories, the Railway Belt in the Province of British Columbia, and within the tract containing three and one-half (3½) million acres of land acquired by the Dominion Government from the said Province of British Columbia, and referred to in subsection (*b*) of section three of the Dominion Lands Act, which were made and established by Order in Council P.C. 729 of April 20, 1910, and re-established by Order in Council P.C. 1793 of August 12, 1911, as amended, are hereby revoked; and

2. The attached Regulations for the disposal of Coal Mining Rights, the property of the Crown, in the Northwest Territories and Yukon Territory, are hereby made and established in substitution for the Regulations hereby revoked.

A. D. P. HEENEY,
Clerk of the Privy Council.

REGULATIONS FOR THE DISPOSAL OF COAL MINING RIGHTS THE PROPERTY OF THE CROWN IN THE NORTHWEST TERRITORIES AND YUKON TERRITORY

1. These Regulations may be cited as the Coal Mining Regulations.

2. In these Regulations,

(*a*) "Coal Mining Location", means a tract of land, containing coal, located or staked in accordance with these regulations.

(*b*) "Locator" means the person who locates or stakes a coal mining location, in the manner prescribed in these regulations.

(*c*) "Minister" means the Minister of Mines and Resources.

(*d*) "Mining Recorder" means the Agent of Dominion Lands for the district, or other officer appointed by the Governor in Council for the purpose referred to.

(*e*) "Year" means a period of twelve consecutive calendar months.

3. The coal mining rights which are the property of the Crown in the Northwest Territories and Yukon Territory, may be leased by the Minister to any person at an annual rental of $1 per acre, payable yearly in advance.

Provided, however, that these regulations shall not apply to school lands or to any land comprised within a National Park of Canada or reserves made by Parliament, or by Order of the Governor in Council, or to land within any incorporated city, town, or village, local administrative district or settlement, unless otherwise specially provided by the Governor in Council.

4. The term of the lease shall be twenty-one years, renewable for a further term of twenty-one years, provided the lessee furnishes evidence, satisfactory to the Minister, to show that during the term of the lease he has complied fully with the conditions of such lease, and with the provisions of the regulations regarding the disposal and operation of coal mining rights which may have been made from time to time by the Governor in Council, and subject to renewal for additional periods of twenty-one years on such terms and conditions as may be prescribed by the Governor in Council.

5. The maximum area of a coal mining location shall be 2,560 acres, and no person shall be permitted to acquire more than one location, except by assignment:

Provided that a person who has been granted a lease for a location, and who subsequently abandons or assigns the same, may, after the expiration of twelve months from the date of the said lease, be permitted to secure another location.

Provided, further, however, that such right of relocation shall not be granted unless all payments on account of rent, royalty, or other liability to the Department, due by such person, have been fully made up to the date of the registration by the Department of the assignment of his right to such lease, or up to the date upon which the notice of his abandonment of the same was received by the Department.

6. Application for a coal mining location shall be filed by the locator in person with the mining recorder for the district in which the location is situated within thirty days from the date upon which the location applied for was staked in accordance with section seven (7) of these regulations. If, however, the location is distant more than one hundred miles from the office of the mining recorder, the locator shall be allowed one additional day for each ten miles, or fraction thereof, in excess of one hundred miles. If the application is not filed within the time prescribed, it shall not be considered.

7. (1) Application for a location shall be in duplicate and shall contain a description by metes and bounds of the location applied for, and shall be accompanied by a plan in duplicate showing the position of such location in its relation to some prominent topographical feature or other known point. The plan shall contain sufficient data to admit of the position of the location applied for being definitely shown in the records of the Department. The location must be rectangular in form, except where a boundary of a previously located tract is adopted as common to both locations, the length not to exceed four times the breadth.

(2) The application shall be accompanied by evidence, supported by affidavit of the locator, to show that the following requirements have been fully complied with:—

(*a*) That the location applied for has been defined on the ground by the locator in person by planting two wooden posts, at least four inches square and standing not less than four feet above the ground—such posts being numbered "1" and "2" respectively. The distance between post No. "1" and post No. "2" shall not exceed 21,120 feet and upon each post shall be inscribed the name of the locator and the

date of the locations. Upon post No. "1" there shall be written in addition to the foregoing, the words "Initial Post", the approximate compass bearing of post No. "2", and a statement of the number of feet lying to the right and to the left of the line between post No. "1" and post No. "2" thus: (Initial post, direction of post No. "2" is. . . . feet lie to the right and . . . . feet to the left of the line between post No. "1" and post No. "2").

When the tract which an applicant desires to lease has been located, he shall immediately mark the line between post No. "1" and post No. "2", so that it can be distinctly seen, in a timbered locality, by blazing trees and cutting underbrush, and in a locality where there is neither timber nor underbrush he shall set posts of the above dimensions or erect mounds of earth or rock not less than two feet high and two feet in diameter at the base in such a manner that the line may be distinctly seen.

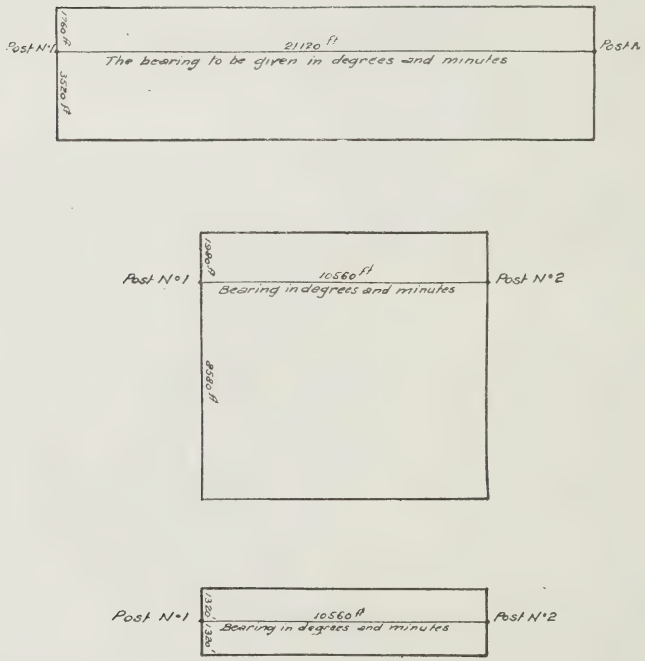
(*b*) All the particulars required to be inscribed on posts No. "1" and No. "2" shall be set out in the application and shall be accompanied by a plan showing the position of the tract in its relation to some prominent topographical feature or other known point, such plan to contain sufficient data to admit of the location being shown definitely on the records of the Department.

(*c*) The locator shall post a written or printed notice on a conspicuous part of the location applied for, setting out his intention to apply within thirty days from the date of such notice for a lease of the coal mining rights under the said location.

(For purposes of illustration, the following diagrams are given to show the manner in which coal mining locations may be laid out in unsurveyed territory.)

DIAGRAM SHOWING MODE OF STAKING

A location should be staked along its greatest dimension.



8. Where two or more persons lay claim to the same location, or to portions of the same locations, the right to acquire a lease shall be in him who can prove to the satisfaction of the Minister that he was the first to take possession of the tract in dispute by demarcation in the manner described in these regulations, and that he made application for a lease thereof within the specified time.

9. The lessee shall commence active operations on his leasehold within one year from the date upon which he may be notified by the proper officer of

the Department to do so, and shall produce from such operations the quantity of coal specified in the said notification. Such notification shall not be given until the expiration of at least one year from the date of the lease, and shall set out the quantity of coal which the lessee is required to mine and produce at the pit's mouth ready for shipment, which quantity, however, may be increased from time to time, upon thirty days' notice to that effect being given to the lessee, but in no case shall the maximum quantity required to be mined exceed ten tons per annum for each acre leased. In case operations are not commenced within the time specified in the notice, or if the required quantity of coal is not mined during each year, the lease shall be subject to cancellation in the discretion of the Minister.

10. The lessee shall not assign, transfer or sublet the rights described in his lease, or any part thereof, without the consent in writing of the Minister being first had and obtained.

11. (1) The boundaries beneath the surface of coal mining locations shall be the vertical planes or lines in which their surface boundaries lie.

(2) The Lessee, however, shall not mine or excavate any coal within sixty feet from the boundary lines of the location which may be leased to him, and the rights and privileges granted under the lease shall not extend to the mining of any coal which lies within sixty feet from the said boundary lines, nor shall the lessee make or suffer to be made any opening underground into any adjoining lands through the said barrier of sixty feet which it is intended shall remain as a protection from water accumulating and from fire occurring in the mine which may be opened on the location, or in mines adjacent thereto, as well as for the prevention of subsidence.

12. All leases of coal mining rights issued under these regulations shall be subject to the provision that actual settlers shall be entitled to buy at the pit's mouth whatever coal they may require for their own use, but not for barter or sale, at a price not to exceed $5 per ton, and the lease issued for coal rights shall be made subject to such provision.

13. The lease shall be in such form as may be determined by the Minister, in accordance with the provisions of these regulations.

14. A fee of $5 shall accompany each application for a lease, which will be refunded if the rights applied for are not available, but not otherwise.

15. The applicant for a lease of coal mining rights shall be given a period of thirty days from the date of the receipt of his application within which to pay to the mining recorder for the district the full amount of the rental for the first year of the term of the lease at the rate of one dollar an acre. If the rental is not received within the time specified, the application shall absolutely lapse, and the rights applied for shall again become available for other disposition in the discretion of the Minister. The lease, if issued, shall bear date the day upon which the application was granted.

16. In isolated portions of the Northwest Territories and Yukon Territory, Indians or Eskimos who apply for permission to mine small quantities of coal for their own use, or for sale to others in their locality, may be granted permission so to do by the mining recorder, or other authorized officer, free of charge, without being required to make application under the provisions of these regulations.

17. If during the term of the lease the lessee shall fail to pay the rental in advance for each subsequent year, at the rate of one dollar ($1) an acre per annum, within thirty days after the date upon which the same became due, the lease shall be subject to cancellation in the discretion of the Minister and to the immediate forfeiture of all the rights granted thereunder.

Provided that if at any time after a lease has been cancelled through failure to pay the prescribed rental, the person in whose favour the lease stood recorded on the date of cancellation applies to the mining recorder for the district for re-instatement in the rights which he formerly had to such lease, and tenders the full amount of the rental which should have been paid to maintain the lease in good standing, with interest, such person may be re-instated in the right which he formerly had to the location sought to be re-acquired, or to any portion thereof, which may still be available.

18. If the surface rights thereof have been patented or have been disposed of by the Crown under any Act or regulation which contemplates the issue of patent, or if the surface rights have been disposed of temporarily under a terminable grant, the Minister may, in consideration of the expenditure to be incurred by the locator on the tract leased, in prospecting operations and upon application to that effect being filed with the mining recorder, of the district in which the location is situated, waive the payment of the rental for the first and the second years of the term of the lease, subject to the following conditions:—

(*a*) Each such application shall be accompanied by a fee of one hundred dollars ($100) which amount will be deducted from the expenditure which the locator shall be required to incur in prospecting operations on his leasehold during the first year of the term of his lease. Such fee shall be refunded to the locator if the application is not granted.

(*b*) Subject to the deduction of the one hundred dollar fee, as provided in the foregoing subsection (*a*), the locator shall expend in actual prospecting operations upon his leasehold by recognized methods, during each of the first and the second years of the term of his lease, the sum of not less than one dollar ($1) for each acre of the total area of his location, and shall, prior to the termination of each of the said two years submit evidence, satisfactory to the agent, supported by affidavit, to show that he has incurred the required expenditure in actual prospecting operations, by recognized methods, on the tract covered by his location. If the lessee fails to submit such evidence in the manner prescribed, the lease shall be subject to cancellation in the discretion of the Minister and to the immediate forfeiture of all the rights granted thereunder.

19. In addition to the rent a royalty per ton of two thousand pounds at such rate as may from time to time be prescribed by Order of the Governor General in Council shall be levied and collected on the merchantable output of the mine, and such royalty shall be payable monthly to the mining recorder from the date upon which operations may be commenced. The person operating a mine shall furnish the mining recorder with sworn returns monthly, or at such times as the Minister may direct, accounting for the full quantity of merchantable coal mined.

20. Every lessee of coal mining rights which are not being operated shall furnish the mining recorder with a sworn statement to that effect at least once in each year.

21. If default is made in payment of royalty payable under a lease or in furnishing the returns and

continued for thirty days after notice has been posted at the mine or conspicuously on the property in respect of which it is demanded by the mining recorder or his direction, or if any attempt is made to defraud the Crown by withholding the royalty or any part thereof payable under that lease, or if false statements are made concerning the amount of coal taken from the lands described in that lease, the lease may be cancelled by the Minister and his decision shall be final.

22. A mining recorder or any person designated by him shall have the right to enter upon any land comprised within a coal mining location, or the workings therein; to examine all records and books of account of the lessee or operator of such mining location, and to make such other examination as may be deemed necessary in order to ascertain whether or not the terms of the lease for such location are being duly complied with.

23. The lease shall in all cases include the coal mining rights only, the property of the Crown, but the lessee may, upon application, be granted a yearly lease at a rental of $1 per acre per annum, payable yearly in advance, of whatever area of the available surface rights of the tract described in the coal mining lease the Minister may consider necessary for the efficient and economical working of the rights granted under such lease.

24. In case the surface rights of a coal mining location are covered by a timber licence, grazing or petroleum lease, mining claim or other form of terminable grant which does not contemplate the issue of patent, the lease shall not authorize entry thereon unless the permission of the Minister is first had and obtained, and such permission shall be given subject to such conditions for the protection of the rights of such lessee or licensee as it may be considered necessary to impose.

25. (1) In case the surface rights of a coal mining location have been patented, or have been disposed of by the Crown under any Act or regulation which contemplates the earning of patent for such surface rights, and the lessee of the coal mining rights cannot make an arrangement with the owner of the surface rights, or his agent, or the occupant thereof, for entry upon the location, or for the acquisition of such portion of the surface rights as may be necessary for the efficient and economical operation of the rights acquired under his lease, he may, provided the mineral rights in the land affected, with access thereto, and the right to use and occupy such portion of the said land as may be necessary for the effectual working of the minerals therein, have been reserved to the Crown in the original grant of the surface rights, apply to the Minister for permission to submit the matter in dispute to arbitration. Upon receiving such permission in writing, it shall be lawful for the lessee to give notice to the owner, or his agent or the occupant, to appoint an arbitrator within a period of sixty days from the date of such notice, to act with another arbitrator named by the lessee, in order to determine what portion of the surface rights the lessee may reasonably acquire:

(*a*) For the efficient and economical operation of the rights and privileges granted him under his lease;

(*b*) The exact position thereof;

(*c*) The amount of compensation to which the owner or occupant shall be entitled has already been paid, he may apply such payment or such portion thereof as to him seems reasonable, on account of future payments of the rental of any leasehold included in the location, such expenditure, however, not to be accepted as payment of rental during a greater period than five years of the term of the leases.

(2) The notice mentioned in this section shall be according to a form to be obtained upon application to the mining recorder for the district in which the land in question is situated, and shall, when practicable, be personally served on the owner of such land, or his agent, if known, or the occupant thereof, and after reasonable efforts have been made to effect personal service without success, then such notice shall be served by leaving it at, or sending it by registered mail, to the last known place of abode of the owner, agent or occupant, and by posting a copy of the same in the office of the mining recorder for the district in which the land in question is situated. Such notice shall be served, if the owner, or his agent, resides in the mining district in which the land is situated, ten days, if out of the mining district and in the territory twenty days, and if out of the territory thirty days, before the expiration of the time limited in such notice. If the owner, or his agent, or the occupant of the land, refuses or declines to appoint an arbitrator, or when for any reason, no arbitrator is so appointed in the time limited therefore in the notice provided for by this section, the mining recorder for the district in which the land in question is situated shall forthwith, on being satisfied by affidavit that such notice has come to the knowledge of such owner, agent, or occupant, or that such owner, agent, or occupant wilfully evades the service of such notice, or cannot be found, and that reasonable efforts have been made to effect such service, and that the notice was left at the last place of abode of such owner, agent, or occupant, as above provided, appoint an arbitrator on his behalf.

26. In case the two arbitrators cannot agree upon the award to be made, they may, within a period of ten days from the date of the appointment of the second arbitrator, select a third arbitrator, and when such two arbitrators cannot agree upon a third arbitrator, the mining recorder for the district in which the land in question is situated shall forthwith select such third arbitrator.

27. All the arbitrators appointed under the authority of these regulations shall be sworn before a Justice of the Peace to the impartial discharge of the duties assigned to them, and after due consideration of the rights of the owner and the needs of the lessee, they shall decide as to the particular portion of the surface rights which the latter may reasonably acquire for the efficient and economical operation of the rights and privileges granted him under his lease, the area thereof, and the amount of compensation therefor to which the owner or occupant shall be entitled.

28. In making such valuation the arbitrators shall determine the value of the land irrespective of any enhancement thereof from the existence of minerals thereunder.

29. The award of any two such arbitrators made in writing shall be final, and shall be filed with the mining recorder for the district in which the land is situated, within twenty days from the date of the appointment of the last arbitrator. Upon the order of the Minister the award of the arbitrators shall immediately be carried into effect.

30. The arbitrators shall be entitled to be paid a per diem allowance of $10, together with their necessary travelling and living expenses while engaged in the arbitration, and the costs of such arbitration shall be borne by the lessee.

31. Where a coal mining location comprises adjoining lands included in one or more leases, acquired

by assignment or otherwise under the provisions of these regulations, recorded in the name of one lessee, and situated more than ten miles from a railway when the leases were issued, and where the lessee of such location can show that he has expended in actual prospecting and developing operations on the location by recognized methods during any year prior to railway communication with the location having been established, an amount equal to or in excess of the prescribed yearly rental of such location, the Minister, upon proof satisfactory to him showing that such expenditure was incurred for the purpose and in the manner specified on one or more of the leaseholds comprising the location, may waive payment of the rental for the year of the term during which such expenditure may be shown to have been incurred, or in case the rental has already been paid, he may apply such payment or such portion thereof as to him seems reasonable, on account of future payments of the rental of any leasehold included in the location, such expenditure, however, not to be accepted as payment of rental during a greater period than five years of the term of the leases.

32. The lessee shall, before opening any mine on the lands described in the lease, and before extracting any coal therefrom, submit to the Minister plans and specifications showing in detail the manner in which it is proposed to open up, develop and operate such mine, and if the location contains more than one seam of coal, detailed information shall be furnished as to the particular seam which it is proposed to develop. No work shall be commenced for the recovery of coal, and no coal shall be extracted until such plans and specifications have been approved by the proper officer of the Department. The procedure to be adopted in opening up and operating a mine on the lands leased, as well as the particular seam of coal which shall first be operated, shall at all times be in accordance with the provisions of regulations duly approved by the Minister, and failure to comply with the requirements of such regulations shall render the lease subject to cancellation in the discretion of the Minister.

33. The fees to be charged in connection with the administration of these regulations shall be as follows:—

Application fee	$ 5.00
Additional application fee under Section 18	100.00
Annual rental per acre—coal mining rights	1.00
Annual rental per acre—surface rights	1.00
Registration of assignment of one lease	3.00
Registration of assignment of more than one lease— for each additional lease	0.50

INDUSTRIAL DEVELOPMENT BANK

OTTAWA, December 9, 1947.

The Hon. D. C. ABBOTT, M.P.,
Minister of Finance,
Ottawa.

Dear Sir,

IN accordance with the provisions of the Industrial Development Bank Act, I am enclosing herewith in duplicate a statement of the Bank's accounts for the fiscal year ended September 30, 1947, signed by the President and Chief Accountant and verified by the auditors.

The statute provides that this statement should be accompanied by such summary or report by the President as he may deem desirable or as may be required by the Minister of Finance.

I think it would be of value in this third annual report not only to review the statistics pertaining to this past fiscal year's operations but to include, where relative, the statistics of previous operating periods since the Bank's inception. By so doing it will be possible to view the manner in which the work of the Bank has been developing. I am also including the classification of its loans, investments and guarantees which the statute provides shall be published at least once in each fiscal year.

CAPITAL

Towards the end of the 1947 fiscal year it became evident that the Bank's outstanding loans and investments other than Dominion Government securities, would soon approach the figure of $15,000,000, which was then the amount of its paid-up capital. Moreover, in connection with loans and investments already authorized, the Bank was committed to disburse a sum considerably in excess of the amount of its paid-up capital. Accordingly, the Bank of Canada was called upon to pay for the remaining 100,000 shares of its subscription under the provisions of Section 12, sub-section 2 of the Act, thus bringing the paid-up capital of the Bank to its full authorized amount of $25,000,000 as at September 30, 1947.

LOANS, INVESTMENTS AND GUARANTEES

The following table shows the number of applications which the Bank has dealt with each year, classifying them as between authorized, refused and withdrawn.

NUMBER OF APPLICATIONS DEALT WITH

	Fiscal Year		
	*1945	1946	1947
Authorized	97	169	177
Refused	160	103	97
Withdrawn	228	105	113
	485	377	387

*11 months only.

It will be noted that the number of applications which have been withdrawn or refused has been very much less in the second and third years of the Bank's operation than in its first fiscal year. I believe that the explanation is that borrowers now have a clearer understanding of the function which the Bank is expected to perform and consequently of the type of application to which it is able to give favourable consideration. The number of applications authorized by the Bank increased slightly during its 1947 fiscal year as compared with 1946. There were also at September 30, 1947, 45 applications still in process of examination.

The following statement gives the extent of the Bank's lending business since its inception.

LOANS, INVESTMENT AND GUARANTEES AUTHORIZED:	Number	Amount
November 1, 1944, to September 30, 1946	266	$12,051,403
October 1, 1946, to September 30, 1947	177	14,684,406
Total	443	$26,735,809

October 1, 1946, to September 30, 1947	41	2,273,925
Total	94	$ 4,408,425
AUTHORIZATIONS WHICH HAVE BEEN REDUCED BY REASON OF PARTIAL REPAYMENT:		
November 1, 1944, to September 30, 1946		$ 347,429
October 1, 1946, to September 30, 1947		1,071,468
Total		$ 1,418,897
AUTHORIZATIONS WHICH HAVE LAPSED BY REASON OF FULL REPAYMENTS OF LOANS:		
November 1, 1944, to September 30, 1946	8	$ 172,800
October 1, 1946, to September 30, 1947	19	977,650
Total	27	$ 1,150,450
NET AUTHORIZATIONS AS AT SEPTEMBER 30, 1947	322	$19,758,037

DISBURSEMENTS:	
November 1, 1944, to September 30, 1946	$ 5,602,931
October 1, 1946, to September 30, 1947	10,167,723
Total	$15,770,654
Less:	
REPAYMENTS:	
November 1, 1944, to September 30, 1946	$ 480,229
October 1, 1946, to September 30, 1947	1,960,430
Total	$ 2,440,659
OUTSTANDING:	
LOANS, INVESTMENTS AND GUARANTEES AS AT SEPTEMBER 30, 1947	$13,329,995

Although, as mentioned above, the number of applications authorized by the Bank increased only slightly in 1947 as compared with 1946, the total dollar amount authorized in 1947 was greater than the combined total of the two previous fiscal years.

The difference between net authorized and outstanding amount in the statement above, arises out of the natural desire of applicants who are about to embark upon a programme of expansion to have their financing arranged in advance, and the policy of the Bank to make disbursements only as funds are required, creating an inevitable lag between the authorization and utilization of credits. Repayments, it will be noted, continue at a very satisfactory rate.

	19,758,037	100.0	13,329,995	100.0

The above table shows the distribution of the Bank's credits according to broad industrial classifications. It is an indication of the various types of industry being financed by the Bank.

B. BY PROVINCES:

	Net Amount Authorized	*Amount Outstanding*
Prince Edward Island	—	—
Nova Scotia	$ 178,400	$ 159,650

This table shows the distribution of authorized credits according to areas and, as might be expected, reflects fairly well the geographic distribution of industry in Canada.

C. BY SIZE:

	Net Number Authorized	*Net Amount Authorized*
$ 5,000 and under	33	$ 103,930
5,001 to $ 25,000	140	1,869,749
25,001 to 50,000	58	2,052,539
50,001 to 100,000	53	3,883,744
100,001 to 200,000	25	3,521,575
Over $200,000	13	8,326,500
	322	$19,758,037

This table shows the distribution of authorized credits according to size. The largest number of authorized credits has been in the $5/25,000 category.

Having regard to present buoyant economic conditions in Canada and to the provisions of Double Depreciation authorized to facilitate post war reconversion of industry, it has been the policy of the Bank to encourage borrowers to repay advances as rapidly as possible and to place their finances on a sound basis to meet possibly less favourable operating conditions.

Profit and Loss

Income for the year amounted to $798,192.92 as compared with 1946 income of $427,322.90. Interest on loans and investments other than Dominion Government securities has shown an increase over last year from $138,172.12 to $401,044.95, reflecting the larger amount of the Bank's capital now actively employed. This source now constitutes a substantial portion of total income. Interest on holdings of Dominion Government securities amounted to $210,264.70 while profit realized from sales of such securities was $186,490.81. Total expenses during the past year, of which details are shown in the attached statement, amounted to $288,512.88 as compared with $185,604.72 in 1946. The profit for the fiscal year 1947 amounted to $509,680.04 as compared with profit in 1946 of $241,718.18.

It has always been recognized that in the type of lending in which the Bank is engaged, one must expect, however capable the management may be, to have an appreciable loss experience over a period of years. The first three years of the Bank's operations have not been typical in this respect mainly because of the particularly favourable level of business conditions in this period. While the Bank and its auditors felt that no write-off or specific appropriations were required against its loans, investments and guarantees as at September 30, 1947, there were certain accounts in which there was an element of doubt. Rather than wait until the situation in such accounts might have deteriorated to the point where write-offs were called for, it was deemed appropriate this year to set aside a reasonable round amount to a Reserve for Losses which will be available to meet specific losses. The amount so set aside out of this year's profits was $200,000 and appears on the liability side of the Bank's balance sheet.

Organization

No new offices were opened during the fiscal year. The Bank has offices in Montreal, Toronto, Winnipeg and Vancouver. Applicants in Alberta, Saskatchewan and the Maritime Provinces are visited by officers of the Bank operating from the nearest office. For example, in the case of the Maritime Provinces, an experienced officer operates from Montreal and more than one-third of his time has been spent in personal study and contacts in every major centre in the Maritime area. Consideration will be given to the establishment of an office of the Bank in any region where the volume of business in the area warrants such a step.

The General Manager's office in Montreal was somewhat hampered during the year by lack of sufficient space. However, since the end of the fiscal year we have been able to obtain additional space which will improve working conditions.

Practically all applications continue to be investigated at the applicant's place of business and the form of security to be held by the Bank as well as the terms of repayment are arranged to suit individual cases. In addition, periodic visits are made to customers' plants in order to maintain personal contact and discuss any problems which may have arisen in the course of their operations.

Since my last report the personnel of the Bank has increased to 77. It is an indication of the highly specialized nature of its work that in addition to experienced bankers the staff includes eight industrial engineers, five lawyers, three chartered accountants and three officers experienced in insurance matters. It is with a great deal of pleasure that I record my appreciation of the high quality of the service rendered by the staff during the last year.

General

During the past year capital investment in Canadian industry has been at an all-time high. During the war many firms were unable to make normal maintenance and modernization expenditures. Since the end of the war, consumer demand, inflated by the war-time backlog of unsatisfied wants and the non-availability of some imports, has been abnormally high, and has tended to encourage capital investment for the purpose of expanding our productive capacity. I believe that most of the increase in our industrial plant and equipment has been on a sound basis inasmuch as it is not out of line with the level of demand for goods and services which one would normally associate with the maintenance of high employment and reasonably prosperous general business conditions. On the other hand, it is only prudent to recognize the possibility that temporarily high demand may have encouraged the creation of excess productive capacity in certain cases. Under present market conditions it is extremely difficult to detect such instances of overcapacity with any reliability; they become apparent under less favourable circumstances.

Since our labour and material resources are already fully employed and an increase in one type of activity usually must be at the expense of another, it seems rather unlikely that there will be any further increase in the rate of capital investment in Canadian industries in the near future. In view of the fact that a good many of our more urgent needs for additional industrial capacity have already been met and that the necessity of conserving our reserves of United States dollars may lead to some restriction on the importation of industrial machinery and equipment, it seems more likely that some decline in the rate of capital investment in industry may occur.

Such a development would not necessarily involve a contraction in the Bank's lending activities. During the last year or so credit of the type which the Bank was set up to provide has been available from other sources on a larger scale than usual. Even so, the Bank has authorized credits during the past three years to 443 industrial firms across Canada. In the period ahead I believe there will still be many special financing problems for industry of the kind that the Bank was designed to meet and that the Bank will continue to provide a useful service.

I am, Dear Sir,
Yours faithfully,

G. F. TOWERS,
President.

SÉNAT

Avis de bills privés

107. Toute demande adressée au Parlement pour obtenir un bill privé doit être annoncée par avis publié dans la *Gazette du Canada;* cet avis doit indiquer d'une manière claire et précise la nature et l'objet de la demande, être signé par les pétitionnaires ou en leur nom et désigner l'adresse des signataires; et si la demande a pour objet l'obtention d'une loi en constitution de corporation, l'avis doit aussi mentionner le nom de la compagnie dont la constitution est projetée.

Outre l'avis dans la *Gazette du Canada,* comme susdit, pareil avis doit être donné de la façon suivante:

(A) Lorsque la demande a pour objet l'obtention d'une loi constituant en corporation:

1. *Une compagnie de chemin de fer ou de canal*—dans un des principaux journaux de la principale cité, ville ou village de chaque comté ou district par où doit passer le chemin de fer ou le canal dont la constitution est projetée;

2. *Une compagnie de télégraphe ou de téléphone*—dans un des principaux journaux de la principale cité ou ville de chaque province ou territoire dans lequel la compagnie se propose d'exercer des opérations;

3. Une compagnie ayant pour objet *l'exécution d'entreprises* dont l'exécution ou l'exploitation pourrait spécialement affecter une localité particulière ou cherchant à obtenir des *droits ou privilèges exclusifs,* ou voulant accomplir toute affaire ou chose dont l'accomplissement affecterait les droits ou propriétés d'autrui—dans un des principaux journaux de l'endroit ou des endroits particuliers que le projet de loi peut affecter;

4. *Une compagnie de banque; compagnie d'assurance; compagnie fiduciaire; compagnie de prêt* ou *compagnie industrielle,* sans pouvoirs exclusifs—dans la *Gazette du Canada* seulement;

5. Et si les entreprises d'une compagnie (constituée ou à constituer) doivent être déclarées d'utilité publique au Canada, cette intention doit être expressément mentionnée dans l'avis, et les requérants doivent adresser une copie de cet avis, sous pli recommandé, au secrétaire de chaque conseil de comté et de chaque corporation municipale pouvant être particulièrement affectée par l'exécution ou l'exploitation de ces entreprises, ainsi qu'au secrétaire de la province dans laquelle des entreprises sont ou peuvent être situées; et la preuve de l'observation de cette prescription par les requérants doit être établie par une déclaration statutaire.

(B) Lorsque la demande a pour objet de modifier une loi existante:

1. Afin de prolonger une ligne de chemin de fer ou un canal, ou de construire des embranchements qui s'y relient—l'avis doit être le même *mutatis mutandis* que celui pour l'obtention d'une loi constituant en corporation une compagnie de chemin de fer ou de canal;

2. Afin de proroger le délai fixé pour la construction ou l'achèvement d'une ligne de chemin de fer, d'un canal, d'une ligne télégraphique ou téléphonique, ou d'autres entreprises déjà autorisées—dans un des principaux journaux de l'endroit où la compagnie a ou est autorisée à avoir son siège social;

3. Afin d'élargir les pouvoirs d'une compagnie (sans comporter attribution de droits exclusifs); d'accroître ou de réduire le capital social d'une compagnie; ou d'augmenter ou modifier son pouvoir d'émettre des obligations ou ses autres pouvoirs d'emprunt; ou de présenter un amendement pouvant porter atteinte aux droits ou aux intérêts des actionnaires, des détenteurs d'obligations ou des créanciers de la compagnie—dans un des principaux journaux du lieu de son siège social.

(C) Tous ces avis, qu'ils soient insérés dans la *Gazette du Canada* ou dans un journal, doivent être publiés au moins une fois par semaine pendant quatre semaines consécutives; et lorsqu'ils sont publiés dans les provinces de Québec et du Manitoba, ils doivent être en langues anglaise et française.

Des exemplaires marqués de chaque numéro de tous les journaux contenant l'avis doivent être adressés au greffier du Sénat et porter la mention: "Avis de bill privé"; au lieu des journaux, une déclaration statutaire attestant que l'avis a été régulièrement publié peut être adressée au greffier du Sénat.

Tout avis adressé sous pli recommandé doit être mis à la poste à temps pour parvenir au secrétaire de la province et au greffier de chaque conseil de comté et de chaque corporation municipale deux semaines au moins avant l'examen de la pétition par le comité des ordres permanents; et une déclaration statutaire établissant le fait de la mise à la poste doit être transmise au greffier du Sénat.

108. Nulle pétition demandant la constitution en corporation d'une compagnie de chemin de fer ou d'une compagnie de canal, ou le prolongement de la ligne d'un chemin de fer ou d'un canal existant ou autorisé, ne doit être étudiée par le comité des ordres permanents, à moins qu'il n'ait été déposé devant le comité une carte ou un plan indiquant le tracé proposé de l'entreprise, ainsi que chaque comté, canton, district ou municipalité par où doit passer le chemin de fer, le canal, l'embranchement ou le prolongement dont la construction est projetée.

110. Toute pétition tendant à obtenir un bill privé ne sera reçue par le Sénat que si elle a été déposée chez le greffier du Sénat au cours des six premières semaines de la session; et tout bill privé introduit au Sénat doit être présenté au Sénat dans un délai de deux semaines après que l'examinateur des pétitions ou le comité des ordres permanents aura fait un rapport favorable à la pétition se rapportant à ce bill; et aucune motion demandant la suspension du présent ordre permanent ne sera prise en considération à moins que le comité des ordres permanents n'ait au préalable présenté un rapport recommandant pareille suspension.

114. Toute personne qui désire présenter un bill privé doit remettre au greffier du Sénat, s'il est projeté que le bill prenne naissance au Sénat, une copie du bill en anglais ou en français, avec un montant suffisant pour en payer la traduction, laquelle sera faite par les fonctionnaires du Sénat; elle doit aussi payer les frais d'impression de 600 exemplaires anglais et de 200 exemplaires français. Le requérant doit pareillement verser entre les mains du greffier du Sénat, aussitôt après la deuxième lecture du bill, et avant sa mise à l'étude par le comité auquel il est renvoyé, la somme de deux cents dollars avec les frais d'impression de la loi pour l'incorporer dans les Statuts; et il doit remettre au greffier de ce comité un reçu de ce versement.

La taxe à acquitter lors de la deuxième lecture d'un bill n'est payée qu'à la Chambre où le bill est présenté.

Modèle d'un bill amendant une loi

60A.—(1) Dans la confection des bills amendant des textes législatifs existants, les amendements ne doivent pas ordinairement être effectués au moyen de clauses qui ajoutent, retranchent ou remplacent des mots, mais au moyen de clauses qui réédictent l'article, le paragraphe ou la disposition, telle qu'amendée.

(2) Dans le texte du bill, sur la page de gauche, le nouveau texte doit être indiqué par les signes typographiques les plus appropriés à chaque cas; crochets, italique, texte souligné, astérisques, etc. En regard de chaque clause, sur la page de droite, le texte amendé par le bill, ou la partie importante de ce texte doit être imprimée, et les changements projetés doivent y être indiqués de la manière prévue ci-dessus.

(3) Lorsqu'une clause abroge un article existant, un paragraphe ou une autre disposition d'un article, cet article, ce paragraphe ou cette autre disposition, ou la partie qui en est importante, doit être imprimé en regard de la clause.

(4) Un mémoire du rédacteur expliquant brièvement les motifs de chaque clause doit être annexé au bill, ou distribué avec le bill. Lorsque possible, le mémoire doit être imprimé sur la page de droite du bill, en paragraphes placés en regard des clauses visées, et portant un numéro correspondant.

(5) Les règles ci-dessus s'appliquent, autant que possible, à la réimpression des bills.

L. C. MOYER,
Greffier du Sénat.

Lorsque la pétition prend naissance dans la province de Québec ou dans la province du Manitoba, l'avis en doit être publié en anglais dans un journal anglais et en français dans un journal français, ainsi qu'en anglais et en français dans la *Gazette du Canada*. h) Lorsque le capital-actions projeté d'une compagnie dépasse $1,000,000, mais n'est pas supérieur à $1,500,000..	600
i) Lorsque le capital-actions projeté d'une compagnie dépasse $1,500,000, mais n'est pas supérieur à $2,000,000..	800
j) Pour chaque million de dollars de capital-actions additionnel ou fraction de million..	200

(4) Lorsqu'un bill porte augmentation du capital-actions d'une compagnie existante, le droit additionnel à débourser est basé sur le tarif précité, et il n'y est fait état que du montant de l'accroissement.

(5) *a*) Lorsqu'un bill tend à l'augmentation de la faculté d'emprunt d'une compagnie ou en comporte l'augmentation sans qu'il y ait accroissement du capital-actions, le droit additionnel est de trois cents dollars.

b) Lorsqu'un bill porte augmentation à la fois du capital-actions et de la faculté d'emprunt d'une compagnie, le droit additionnel est perçu sur les deux

(6) Si, à quelque phase du bill, il y a augmentation du capital-actions projeté d'une compagnie ou de sa faculté d'emprunt, le bill en question ne peut franchir une autre étape tant que ces promoteurs n'auront pas soldé les frais occasionnés par cette modification.

(7) Dans la présente règle, l'expression "capital-actions projeté" comprend toute augmentation de capital-actions prévue par le bill; et quand un bill porte faculté d'augmenter à quelque époque le chiffre du capital-actions, le droit additionnel est calculé sur le maximum de l'augmentation projetée, dont le bill fait mention

(8) Les droits additionnels établis par la présente règle s'appliquent aussi aux bills privés qui ont pris naissance au Sénat; néanmoins, si la pétition introductive d'un bill privé de ce genre a été présentée à la Chambre des communes dans les six premières semaines de la session, les droits additionnels prévus aux alinéas *b*) ou *c*) du paragraphe 3 ne sont pas exigibles.

Du bill-type

96. (1) Le greffier en chef des bills privés remplit les fonctions d'examinateur des bills privés, et, comme tel, il est tenu d'étudier et de reviser tous les bills privés antérieurement à leur impression, en vue d'y établir une certaine uniformité, lorsque la chose est possible, et de s'assurer qu'ils ont été élaborés conformément aux articles du Règlement de la Chambre relatifs aux bills privés.

(2) Tout bill tendant à la constitution en corporation d'une compagnie doit, lorsqu'il a été adopté une formule de bill-type, être rédigé en conformité de ce modèle, dont il peut être obtenu des exemplaires du greffier de la Chambre. Toute disposition d'un bill de ce genre qui n'est pas conforme au bill-type doit être insérée entre crochets ou soulignée, et elle doit être imprimée de la sorte.

(3) Lorsqu'un bill privé porte modification d'un article, paragraphe ou alinéa quelconque d'une loi existante, ce même article, paragraphe ou alinéa doit être abrogé dans le texte du bill et reconstitué selon la modification que les auteurs du bill veulent y apporter, la nouvelle rédaction devant être soulignée. L'article, le paragraphe ou alinéa que les auteurs veulent faire abroger, ou encore ce qu'il renferme d'essentiel, doit être imprimé sur la feuille du côté droit en regard de ce même article, paragraphe ou alinéa.

(4) Lorsqu'un bill privé tend à abroger un article, paragraphe ou autre partie d'un article, cet article, ce paragraphe ou cette autre partie, ou encore ce qui s'y trouve d'essentiel, doit être imprimé en regard de l'article du bill.

(5) Une note établissant brièvement l'objet d'une disposition d'un caractère exceptionnel ou dont la teneur s'écarte des dispositions du bill-type ou des articles servant de modèle, doit être imprimée en regard de l'article du bill.

CARTE OU PLAN ACCOMPAGNANT LE BILL

98. Nul bill portant constitution en corporation d'une compagnie de chemin de fer ou de canal, nul bill tendant à faire autoriser la construction d'embranchement ou de prolongements se rattachant à des lignes de chemins de fer ou à des canaux existants, nul bill portant modification de la route suivie par un chemin de fer ou un canal exploité par une compagnie déjà constituée en corporation ne doit être pris en considération par le comité des chemins de fer tant qu'il n'aura pas été produit devant ledit comité, au moins une semaine avant la prise en considération du bill, une carte ou un plan établi sur une échelle d'au moins un demi-pouce au mille, indiquant le territoire sur lequel il est question de construire les ouvrages projetés et aussi les ouvrages analogues qui y ont déjà été construits ou autorisés, ou qui intéressent la région ou la partie de région devant être desservie par les services projetés. Cette carte ou ce plan doit porter la signature de l'ingénieur ou de toute autre personne qui l'a dressé.

Le 7 novembre 1947.

BANQUE D'EXPANSION INDUSTRIELLE

Ottawa, le 9 décembre 1947.

L'honorable D. C. Abbott, M.P.,
Ministre des Finances,
Ottawa.

Monsieur le ministre,

Conformément aux dispositions de la Loi sur la Banque d'expansion industrielle, j'ai l'honneur de vous adresser ci-joint en double exemplaire un état des comptes de la Banque pour l'exercice financier terminé le 30 septembre 1947, signé par le président et par le comptable en chef, et certifié par les vérificateurs.

La loi stipule que cet état doit être accompagné du relevé ou rapport du président qu'il peut juger opportun ou qui peut être requis par le ministre des Finances.

Je crois qu'il serait utile en ce troisième rapport, non seulement de présenter les statistiques se rapportant aux opérations de cette dernière année financière mais d'inclure où il y a lieu les statistiques des exercices précédents depuis les débuts de la Banque. On verra ainsi comment le travail de la Banque s'est développé. J'ajoute aussi la classification de ses prêts, de ses placements et de ses garanties qui doit être publiée au moins une fois pendant chaque exercice financier d'après les dispositions de la loi.

CAPITAL

Vers la fin de l'exercice financier 1947 il devient évident que les prêts et les placements en cours autres qu'en titres de l'Etat atteindraient bientôt le chiffre de $15,000,000, ce qui était alors celui de son capital versé. La Banque s'était de plus déjà engagée à débourser pour des prêts et des placements autorisés une somme dépassant de beaucoup le montant de son capital versé. La Banque du Canada fut donc appelée à payer 100,000 actions, le solde de sa souscription faite en conformité des dispositions de l'article 12, paragraphe 2 de la Loi, ce qui porta au 30 septembre 1947 le capital versé de la Banque à son plein montant autorisé de $25,000,000.

PRÊTS, PLACEMENTS ET GARANTIES

Le tableau suivant indique le nombre de demandes de crédit reçues par la Banque chaque année, selon qu'elles ont été autorisées, refusées ou retirées.

NOMBRE DE DEMANDES CONSIDÉRÉES

	Exercice financier		
	*1945**	*1946*	*1947*
Autorisées	97	169	177
Refusées	160	103	97
Retirées	228	105	113
	485	377	387

*11 mois seulement

On remarquera que le nombre de demandes retirées ou refusées a été beaucoup moindre au cours des deuxième et troisième années des opérations de la Banque que lors de son premier exercice. Cela s'explique, je crois, par le fait que les emprunteurs comprennent mieux maintenant quel rôle la Banque doit jouer et par conquent quel genre de demandes elle peut considérer favorablement. Le nombre de demandes autorisées par la Banque a augmenté un peu pendant l'exercice 1947, comparé à 1946. Il y avait aussi au 30 septembre 1947 quarante-cinq demandes sous enquête.

Le relevé suivant montre l'étendue des opérations de la Banque depuis son début:

PRÊTS, PLACEMENTS ET GARANTIES AUTORISÉS:	*Nombre*	*Montant*
1er novembre 1944 au 30 septembre 1946	266	$ 12,051,403
1er octobre 1946 au 30 septembre 1947	177	14,684,406
Total	443	$ 26,735 809

PRÊTS, PLACEMENTS ET GARANTIES AU 30 SEPTEMBRE 1947	$ 13,329,995

Tel que mentionné ci-dessus, le nombre des demandes autorisées par la Banque n'a augmenté que légèrement en 1947 à comparer avec 1946, mais en dollars le montant autorisé en 1947 fut plus élevé que la somme du total des deux exercices précédents.

La différence entre le montant des autorisations et celui des prêts en cours au tableau ci-dessus a pour cause le désir bien naturel des demandeurs qui se disposent à entreprendre de l'expansion de s'assurer d'avance qu'ils obtiendront les capitaux nécessaires et la pratique de la Banque de ne débourser les fonds qu'au moment où ils sont requis, ce qui crée inévitablement un écart entre l'autorisation et l'utilisation des crédits. Il est à remarquer que les remboursements continuent de se faire de façon très satisfaisante.

Ce tableau indique la distribution des crédits autorisés par ordre du volume. Le plus grand nombre des crédits autorisés se trouve dans la catégorie $5/25,000.

Vu l'activité économique actuelle au Canada et la double dépréciation autorisée pour faciliter la reconversion industrielle de l'après-guerre, la Banque a encouragé les emprunteurs à rembourser les avances aussi rapidement que possible et à établir solidement leurs finances afin de pouvoir envisager des conditions d'opération peut-être moins favorables.

PROFITS ET PERTES

Les revenus de l'année se chiffrent à $798,192.92 à comparer aux revenus de $427,322.90 en 1946. Les intérêts sur les prêts et les placements autres que les valeurs du gouvernement du Dominion accusent une augmentation sur l'exercice précédent de $138,172.12 à $401,044.95, ce qui reflète le montant plus considérable du capital de la Banque employé de façon plus productive. Cette source constitue maintenant une partie substantielle du revenu global. Les intérêts sur les titres de l'Etat en portefeuille se montent à $210,264.70, et le profit réalisé sur les ventes des valeurs de cette catégorie, à $186,490.81. Le total des dépenses au cours de l'exercice, dont le relevé ci-annexé fournit les détails, est de $288,512.88 à rapprocher de $185,604.72 en 1946. Les bénéfices nets pour l'année financière 1947 se chiffrent à $509,680.04 à comparer avec $241,718.18 en 1946.

Il a toujours été reconnu que dans le genre de prêts où la Banque s'est engagée, si compétente que soit la direction, on doive s'attendre au cours d'une période d'années à l'expérience d'une perte appréciable. A cet égard, les trois premières années des opérations de la Banque n'ont pas été typiques à cause surtout du niveau particulièrement favorable des affaires durant cette période. Bien que la Banque et ses vérificateurs n'aient estimé devoir inscrire aucune défalcation ni affecter aucun prélèvement spécifique contre ses prêts, placements et garanties au 30 septembre 1947, certains comptes comportaient pourtant un élément de doute. Plutôt que de retarder jusqu'à ce que la situation de ces comptes puisse se détériorer au point d'exiger une défalcation, il a été jugé à propos cette année d'attribuer un montant raisonnable à titre de réserve pour pertes, qui sera disponible en cas de nécessité. Le montant ainsi attribué des profits de cette année est de $200,000 et il apparaît au passif du bilan de la Banque.

ORGANISATION

Aucun nouveau bureau n'a été ouvert pendant le dernier exercice. La Banque a des bureaux à Montréal, Toronto, Winnipeg et Vancouver. Les personnes de l'Alberta, de la Saskatchewan et des provinces maritimes qui font une demande de crédit reçoivent la visite de représentants de la Banque attachés au bureau le plus rapproché. Par exemple, dans le cas des provinces maritimes, un fonctionnaire expérimenté faisant partie du bureau à Montréal a passé plus du tiers de son temps à étudier tous les principaux centres du territoire maritime et à y établir des contacts. La Banque considérera l'établissement d'un bureau dans n'importe quelle région où le volume des affaires justifiera une telle démarche.

Le bureau du gérant général à Montréal a été quelque peu incommodé cette année par un manque d'espace suffisant. Toutefois, depuis la fin de l'exercice financier, nous avons pu obtenir de l'espace supplémentaire et ceci améliorera les conditions du travail.

Pratiquement toutes les demandes sont l'objet d'une enquête sur place, et le genre des garanties que détiendra la Banque ainsi que les conditions du remboursement sont établis pour convenir aux exigences des cas particuliers. De plus il y a visite périodique aux établissements des clients pour maintenir le contact personnel et discuter les problèmes qui ont pu surgir au cours de leurs opérations.

Depuis mon dernier rapport le nombre des employés de la Banque a été porté à 77. Outre des banquiers d'expérience, le personnel comprend huit ingénieurs industriels, cinq avocats, trois comptables agréés et trois fonctionnaires expérimentés dans l'assurance, ce qui indique le caractère hautement spécialisé de ses affaires. C'est avec plaisir que je rends témoignage à la haute qualité des services rendus par le personnel pendant l'année écoulée.

DIVERS

Le montant des capitaux placés dans l'industrie canadienne a atteint l'an dernier son chiffre le plus élevé. Pendant la guerre plusieurs établissements n'ont pu faire des dépenses normales d'entretien et de modernisation. Depuis la fin de la guerre, la demande du consommateur, gonflée par les besoins accumulés qui n'avaient pu être satisfaits et la non-disponibilité durant la guerre de certains produits importés, a été extraordinairement élevée et elle a activé le placement en immobilisations dans le but d'accroître notre capacité de production. Je crois que presque toute l'expansion dans nos établissements industriels et leur outillage est bien fondée parce qu'elle n'est pas disproportionnée au niveau de la demande de marchandises et de services qu'on associe normalement au maintien de l'emploi sur une haute échelle et à des conditions générales d'affaires raisonnablement prospères. D'autre part il n'est que prudent de reconnaître que la demande temporairement élevée puisse avoir induit à créer dans certains cas un excédent de capacité de production. Dans la situation actuelle il est extrêmement difficile de discerner avec certitude les excès en ce sens; ils se manifestent quand les circonstances sont moins favorables.

Puisque nos ressources en fait de main-d'œuvre et de matériaux sont déjà complètement employées et que l'augmentation d'un genre d'activité se fait ordinairement aux dépens d'un autre il semble peu probable que le taux des immobilisations dans l'industrie canadienne s'accélère davantage dans un avenir rapproché. Vu que nos besoins d'ajouter à la capacité de production industrielle ont été déjà en grande partie satisfaits, et que la nécessité de conserver notre réserve de dollars des Etats-Unis puisse entraîner quelques restrictions dans l'importation de la machinerie et de l'outillage industriels, on peut plutôt s'attendre à un certain ralentissement dans le taux du placement en immobilisations.

Une telle situation ne comporterait pas nécessairement une contraction dans les prêts de la Banque. Depuis environ un an on a pu obtenir plus que d'habitude d'autres sources le genre de crédit que la Banque est destinée à fournir. Tout de même, en ces trois dernières années la Banque a autorisé des crédits à 443 établissements industriels à travers le Canada. Dans la période qui s'annonce, je crois que se poseront encore à l'industrie bien des problèmes particuliers de finances dont la solution est du ressort de la Banque et que celle-ci continuera de rendre service.

Veuillez agréer, monsieur le ministre, l'expression de mes sentiments dévoués.

Le président,

G.-F. TOWERS.
